## Principal's Message

Calistoga Junior/Senior High School is a comprehensive, college-preparatory secondary school located in rural Napa County in the town of Calistoga. Separate junior and senior high school programs are housed on the same campus. There is a high degree of articulation between the junior and senior high school programs. Students receive a personalized education that is consistent from seventh through twelfth grade.

Our goal is that upon graduation every student will have the preparation and skills to choose from any post-secondary opportunity. We provide the personal attention and support to make this a reality.

With an enrollment of 385 students, Calistoga Junior/Senior High offers the full complement of academic and extracurricular programs, including extensive activities and athletic programs for junior and senior high students. Advanced Placement (AP), Honors, and on-site Napa Valley College courses expand students' options to prepare them for university coursework.

Our school, known as the "home of scholars and champions," provides a rigorous academic program for all students. In the 2004-05 school year, Calistoga Junior/Senior High School received recognition as a California Distinguished School.

Staff longevity and parent and community support are tremendous assets on our campus. Staff members are expert teachers who have taught in their content areas for many years.

Our local community businesses and service clubs, Napa County agencies, the Calistoga Educational Foundation, the Wildcat Athletic Boosters, and the Music and Arts Boosters provide extensive funding for programs that support the school.

Calistoga Junior/Senior High School is a place where all students are supported and encouraged to realize their dreams.

## Professional Development

Professional development for teachers is provided for two days before the school year begins and three days after the regular school day during the school year. In order to provide teachers collaboration and staff development time one morning each week, the instructional time is extended the other four days. Teachers attend conferences and workshops off site and share the information with the staff.

## Public Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (i.e., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available at a workstation, and the ability to print documents.

### District Vision

Our vision is that all of our students have the skills, knowledge and attitudes to become confident, competent, productive citizens and lifelong learners.

### District Core Beliefs

We believe that our most important resource is our students.

We believe that all students can learn. Our responsibility is to make it happen.

We believe that we must provide a safe and orderly environment.

We believe that parents are teachers, too. We invite and encourage parents to get involved with the school.

We believe in an uncompromising commitment to high standards.

*"We are a collaborative, culturally rich educational community, where a rigorous and innovative curriculum prepares our students to be successful contributors to our global society."*

## Parental Involvement

Parent and community involvement is essential to our school success. Parents who wish to visit our campus informally are welcomed as classroom guests and volunteers. Monthly "drop-in" parent coffees offer parents the opportunity of meeting with site administrators to discuss issues in an open forum.

Parents also have access to up to the minute attendance and grades on the web through our new Powerschool system.

Drama, music, and athletics are other arenas for parents to participate as volunteers or visitors. Parent education courses are offered in our District and at the school site to support parents in planning college applications, exploring options for student success, managing homework, and more.

For parents who wish for more formal involvement, opportunities are prevalent through our athletic and music/arts boosters, the Calistoga Education Foundation, School Site Council, and the English Learners Advisory Council.

Our small size is an advantage as staff members are readily accessible to parents.

For more information on how to become involved, contact Toni Weems, Principal's secretary; Richard Savage, Principal; and/or Sylvia Jimenez-Martin, Counselor, at (707) 942-6278.

## Enrollment and Demographics

The total enrollment at the school was 392 students for the 2008-09 school year.

## School Safety

The School Safety Plan is reviewed annually. The plan addresses the response to earthquake, fire, intruders, and weapons on campus. It highlights interagency collaboration for crisis response and proactive planning for natural disasters. Drills and simulations support school preparedness.

The School Safety Plan was last reviewed, updated, and discussed with the school faculty in August 2008.

## Class Size

The bar graph displays the three-year data for average class size.

## School Facility Good Repair Status

The table below shows the results of the school's most recent inspection using the Facility Inspection Tool (FIT) or equivalent school form. This inspection determines the school facility's good repair status using ratings of good condition, fair condition, or poor condition.

School Facility Conditions and Improvements				
Items Inspected	Repair Status			
	Good	Fair	Poor	
<b>Systems:</b> Gas Systems and Pipes, Mechanical Systems (heating, ventilation, and air conditioning), Sewer	✓			
<b>Interior:</b> Interior Surfaces (floors, ceilings, walls, and window casings)	✓			
<b>Cleanliness:</b> Pest/Vermin Control, Overall Cleanliness (school grounds, buildings, rooms, and common areas)	✓			
<b>Electrical:</b> Electrical Systems (interior and exterior)	✓			
<b>Restrooms/Fountains:</b> Restrooms, Sinks/Drinking Fountains (interior and exterior)	✓			
<b>Safety:</b> Fire Safety Equipment, Emergency Systems, Hazardous Materials (interior and exterior)	✓			
<b>Structural:</b> Structural Condition, Roofs	✓			
<b>External:</b> Windows/Doors/Gates/Fences, Playgrounds/School Grounds	✓			
Overall Summary of Facility Conditions				
	Exemplary	Good	Fair	Poor
Overall Summary	✓			

Note: The most recent school site inspection occurred on June 17, 2009, and the inspection form was most recently completed on June 17, 2009.

## School Facilities

The Calistoga Junior/Senior High School is located on 13.9 acres in the center of Calistoga. The campus is set in a beautiful park-like setting and is adjacent to the Calistoga Teen Center. The junior high portion of the campus was completely rebuilt in 1999. It includes an expansive covered eating area and access to renovated handicapped restrooms. The main building and several of the high school classrooms were built in 1990 and are modern and clean. The gymnasium is equipped to host numerous campus and community sporting events and will hold approximately 400 students. It was completely modernized in the summer of 2004 and all of the restroom and shower areas were upgraded to be fully compliant with the Americans with Disabilities Act.

Full-time library services are available in our library media center, and there are two additional computer labs on campus. All classrooms have Internet access and handicap accessibility.

Campus safety is maintained with onsite yard supervisors, a closed campus for junior high school students, and security cameras housed in strategic locations throughout the campus. A lunchtime recreational sports program offers positive alternatives and additional supervision to promote a safe, clean campus environment.

The maintenance and custodial staff begin before school hours and are available throughout the school day as well as after school hours.

## School Facilities

*Continued from left*

Two new classrooms were recently completed, replacing older portables. The construction was funded through developer fees and District funds. The main HVAC system was replaced with funding from State and District funds.

The District participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems. For the 2009-10 school year, the District budgeted \$54,960 for the Deferred Maintenance Program. This represents 0.05% of the District's general fund budget.

### Types of Services Funded

These programs and supplemental services are provided at the school either through categorical funds or other sources that support and assist students:

- Certificated teachers
- Basic literacy and advanced college prep instructional program
- Music, art, drama and elective course programming
- Academic counseling services
- Personal counseling services
- Staff development
- Classified support staff
- Instructional aides
- Textbooks and instructional materials
- Special Education programs
- Maintenance
- Educational technology
- Home-to-school transportation
- Library services
- Summer school
- District utilities
- Advanced Placement
- Honors and Gifted Programming
- Program for English Language Learners
- School Safety and Violence Prevention
- Supplemental counseling
- After-school tutoring
- Interscholastic athletic program

### Textbooks and Instructional Materials

All pupils attending the Calistoga Schools have a copy of the State-adopted textbooks that are used in the core curriculum areas. In addition, students are provided with all of the necessary instructional materials needed to enable them access to the core curriculum.

All students have access to all adopted textbooks and ancillary instructional materials, for use in the classroom and to take home.

## National Assessment of Educational Progress

The National Assessment of Educational Progress (NAEP) is a nationally representative assessment of what America's students know and can do in various subject areas. Assessments are conducted periodically in mathematics, reading, science, writing, the arts, civics, economics, geography, and U.S. history. Student scores for reading and mathematics are reported as performance levels (i.e., Basic, Proficient, and Advanced) and the participation of students with disabilities and English language learners is reported based on three levels (Identified, Excluded, and Assessed). Detailed information regarding the NAEP results for each grade level, performance level, and participation rate can be found on the NAEP Web page at <http://nces.ed.gov/nationsreportcard/>.

### NAEP Reading and Mathematics Results: Grades 4 and 8

**NAEP Testing Note:** Only a sample group of California's schools and districts participate in the NAEP testing cycle. Therefore, students in any particular school or district may not be included in these results. NAEP results reflect state level student performance and is not reflective of either the district or the individual school. Also, comparisons of student performance on the NAEP and student performance on the STAR Program assessments cannot be made because there are key differences between the two testing programs. For example, the two assessments test students in different grade levels and the tests are based on a different set of standards. For more information on the differences between the NAEP and STAR, please visit CDE's NAEP Web page at [www.cde.ca.gov/ta/tg/nr/](http://www.cde.ca.gov/ta/tg/nr/).

## Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key tests, including the California Standards Test (CST), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA). The CSTs are multiple choice tests in English-language arts, mathematics, science, and history-social science for varying grade levels. Some grade levels also participate in an essay writing test.

The CSTs are used to determine students' achievement of the California Academic Content Standards. These standards describe the knowledge and skills that students are expected to learn at each grade level and subject.

The CMA is a modified assessment for students with disabilities who have an individualized education program (IEP). It is designed to assess those students whose disabilities prevent them from achieving grade-level proficiency on an assessment of the content standards with or without accommodations.

The CAPA is an alternate assessment for students with significant cognitive disabilities who are unable to take the CST with accommodations or modifications or the CMA with accommodations.

For a complete report on all tests, participation, groups, and their scores by grade level, please visit <http://star.cde.ca.gov/>. To learn more about the STAR Program, please visit the guide at [www.cde.ca.gov/ta/tg/sr/documents/starpkt5intrpts.pdf](http://www.cde.ca.gov/ta/tg/sr/documents/starpkt5intrpts.pdf).

## STAR Results for All Students: Three-Year Comparison

The Standardized Testing and Reporting (STAR) results are reported as performance levels in order to compare student achievement to state standards. The five performance levels are: **Advanced** (*exceeds state standards*); **Proficient** (*meets state standards*); **Basic**; **Below Basic**; and **Far Below Basic**. Students scoring at the Proficient or Advanced level meet state standards in that content area. The tables below show the percentage of students that scored at Proficient or Advanced levels in English-language arts, mathematics, science, and history-social science.

Percentage of Students Scoring At Proficient or Advanced Levels

## Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. The API is a score on a scale of 200 to 1,000 that reflects a school's, district's or a student group's performance level, based on the results of statewide testing. An API score of 800 is set as the statewide target.

Each annual API reporting cycle includes a Base and a Growth API. The Base API starts the reporting cycle and is released approximately a year after testing (i.e., The 2008 Base is calculated from results of statewide testing in spring 2008 but is released in May 2009). The Growth API is released after the Base API but is calculated from test results from the following year (i.e., The Growth API is calculated from results of statewide testing in spring 2009 and released in August 2009). Therefore, for the 2008-09 API reporting cycle, the 2008 Base indicator and 2009 Growth indicator are used. To learn more about API, please visit the API information guide at [www.cde.ca.gov/ta/ac/ap/documents/infoguide08.pdf](http://www.cde.ca.gov/ta/ac/ap/documents/infoguide08.pdf) and the API overview guide at [www.cde.ca.gov/ta/ac/ay/documents/overview09.pdf](http://www.cde.ca.gov/ta/ac/ay/documents/overview09.pdf).

■ Data are reported only for numerically significant groups.

API Testing Note: Assessment data are reported only for numerically significant groups. To be considered 'numerically significant' for the API, the group must have either: (1) at least 50 students with valid test scores who make up at least 15% of the total valid scores, or (2) at least 100 students with valid test scores.

## Academic Performance Index Ranks

Schools are ranked in ten categories of equal size, called deciles, from 1 (lowest) to 10 (highest) based on their API Base reports. A school's "statewide rank" compares its API to the APIs of all other schools statewide of the same type (elementary, middle, or high school). A "similar schools rank" reflects how a school compares to 100 statistically matched similar schools. This table shows the school's three-year data for statewide API rank and similar schools API rank, for which infor-

This table displays, by student group, the actual API change in points added or lost for the past three years, and the 2009 API score.

## California Physical Fitness Test

Each spring, all students in grades 5, 7, and 9 are required to participate in the California Physical Fitness Test (PFT). The State Board of Education designated the *Fitnessgram*® as the PFT for students in California public schools. The test measures six key fitness areas:

1. Aerobic Capacity
2. Body Composition
3. Flexibility
4. Abdominal Strength and Endurance
5. Upper Body Strength and Endurance
6. Trunk Extensor Strength and Flexibility

The primary goal of the *Fitnessgram*® is to assist students in establishing lifetime habits of regular physical activity. For 2008-09, no information is available for Calistoga Junior/Senior High School regarding the California PFT. For more detailed information on the California PFT, please visit [www.cde.ca.gov/ta/tg/pf/](http://www.cde.ca.gov/ta/tg/pf/).

## Adequate Yearly Progress

The No Child Left Behind (NCLB) Act requires that all schools and districts meet Adequate Yearly Progress (AYP) requirements. To meet these standards, California public schools and districts must meet or exceed criteria in four target areas:

1. Participation rate on statewide assessments in English-language arts and mathematics
2. Percentage of students scoring proficient on statewide assessments in English-language arts and mathematics
3. API scores
4. Graduation rate for high schools

The table displays whether or not the school and district made AYP overall and met each of the AYP criteria for 2008-09. For more information, please visit [www.cde.ca.gov/ta/ac/ay/](http://www.cde.ca.gov/ta/ac/ay/).

## Federal Intervention Program

Schools and districts that receive Title I funding can enter Program Improvement (PI) if they fail to meet AYP over two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). With each additional year they don't meet AYP, they advance to the next level of intervention. This table displays the 2009-10 Program Improvement status for the school and district. For more information, please visit [www.cde.ca.gov/ta/ac/ay/](http://www.cde.ca.gov/ta/ac/ay/).

### Career Technical Education Programs

Calistoga High School offers ten sections of career technical education. Computer Applications, Computer Repair, and Multimedia Design are offered through the Regional Occupation Program. Students progress from basic skills through professional projects. Students contribute to school programs by producing the Digital Yearbook and provide support to the school's technological needs. A computer professional from the community sits on our Educational Technology Committee to provide community representation and valuable input. The Regional Occupation Program is also offering a Work Experience class for the 2009-10 school year.

### Courses Required for UC/CSU Admission

**University of California:** Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For more information on general admissions requirements, please visit the University of California Web site at [www.universityofcalifornia.edu/admissions/general.html](http://www.universityofcalifornia.edu/admissions/general.html).

**California State University:** Admission requirements for the California State University (CSU) use three factors to determine eligibility. They are: specific high school courses; grades in specified courses and test scores; and graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses utilize local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For general admissions requirements, please visit the California State University Web site at [www.calstate.edu/admission](http://www.calstate.edu/admission).

## Career Technical Education Programs

*Continued from page 9*

Architecture/Mechanical Drawing is provided by the District. Students use traditional tools and computer aided design (CAD) to produce award winning designs and drawings. A student may take the class at increasing levels of difficulty and sophistication. An introductory course is also offered to junior high students. The District also offers Woodworking 1-3. Students produce professional quality products. The program's success is manifested by the consistent first place and best of show awards from the objectively judged Napa County Fair. In addition to the general school population, Woodshop has traditionally provided a successful environment for both English learners and Special Education students.

Our goal is to continue offering programs and classes that are integrated with our Standards-based curriculum, while developing career pathways that will help students meet the demanding performance requirements expected of the 21st century workforce.

The core indicator of success is based on an increased number of students participating in career education who graduate and a decreased number of students who drop out.

The primary representative of the district's career technical advisory committee is Principal, Richard Savage.

## California High School Exit Exam Results

The California High School Exit Exam (CAHSEE) is primarily used as a graduation requirement in California, but the grade 10 results of this exam are also used to determine AYP for high schools as required by the federal NCLB law. The CAHSEE has an English-language arts section and a math section and, for purposes of calculating AYP, three performance levels were set: Advanced, Proficient, and Not Proficient. Please note the score a student must achieve to be considered Proficient is different than the passing score for the graduation requirement. The table displays the percentage of students scoring at Proficient or Advanced levels for the most recent three-year period.
